

WHY CHOOSE CLOTH Diapers?

Renewable, Recyclable, Reusable

renewable The single-use life cycle of disposable diapers perpetuate their continued consumption, causing undue stress on our natural resources.

- The U.S. consumes an estimated 27.4 billion disposable diapers each year.
- Over 92% of all single-use diapers end up in a landfill.
- Over 300 lbs. of wood and 50 lbs. of petroleum feedstocks are used to produce disposable diapers for ONE baby EACH year.

recyclable Disposable diapers are not readily biodegradeable which is why it is estimated they take 250-500 years to decompose. In 1991, an attempt to recycle disposable diapers was deemed economically unfeasible.

reusable Cotton diapers are not single-use diapers. A family can expect to reuse cloth diapers 50 to 200 times before turning them into rags.
